### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Neerings on November 4, 2004.

The application has been amended as follows:

In claim 7, lines 9, after "coupled to", delete — the output of --.

### **Reasons for allowance**

The following is an examiner's statement of reasons for allowance:

The present invention is drawn to a power switching circuit utilizing a power switching transistor, a first body node switching transistor, a second body node switching transistor, a comparator, an inverter, a load, pass transistor circuitry and a pass gate bias transistor recited in claims 1-18. None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: the combination of "the power switching transistor", "the first body node switching transistor", "the second body node switching transistor", "the comparator" and "the inverter" as recited in claim 1; the combination of all the method steps as recited in claim 16.

The prior art references submitted by the applicant on IDS forms received on 01/12/04 & 12/02/03 were reviewed and considered. These references appear to be

the best references with respect to the claimed invention (i.e, the power switching circuit) and closely matched most of the references found during the examiner's searches. However, as noted above, the combination of "the power switching transistor", "the first body node switching transistor", "the second body node switching transistor", "the comparator" and "the inverter" or the combination of all the method steps as recited in the claims is not disclosed. Therefore, the claims are patentably distinct over all these prior art references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to My-Trang N. Ton whose telephone number is 571-272-1754. The examiner can normally be reached on 7:00 a.m - 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
